Switch = 5v**

**Type C - 5pin
Switch = 5v**

SaturnPSU ID Sheet

Use the pictures above to help identify your original Saturn power supply and adjust the switch on the SaturnPSU to match the value located under the image of your original power supply.

For instance, If your power supply looks like a Type B power supply, move the SaturnPSU Switch into the 3.3v position.

If you cannot identify your original power supply
Please contact me via the website
